PROJECTS / OPEN-SOURCE

PORTFOLIO

Next.js

"My Portfolio Website" is a website I created using HTML, CSS, and Next.js. It displays my web development skills and projects in a stylish and easy-to-use format. It's a way for people to see what I can do and get in touch with me if they're interested in working together.

ECOMMERCE

Next.js

The Ecommerce Website is a user-friendly online shopping platform developed using HTML, CSS, and Next.js. It offers a seamless shopping experience with a visually appealing design and responsive layout for all devices. Sellers can easily showcase and manage their products, while customers can browse and securely purchase items. The website's integration with Next.js ensures fast-loading pages and efficient performance.

TRAVEL BLOG

HTML, CSS, Javascript

The Travel Website is a static web project built using HTML, CSS, and JavaScript. It provides users with captivating visuals and informative content about various travel destinations. Visitors can browse through travel guides, view stunning images, and access essential travel information. With its static nature, the website offers fast loading times and a hassle-free experience for users seeking inspiration and ideas for their next adventure.
